Covered Entities Guide for Public Users

Using Advanced Manufacturer Search Features

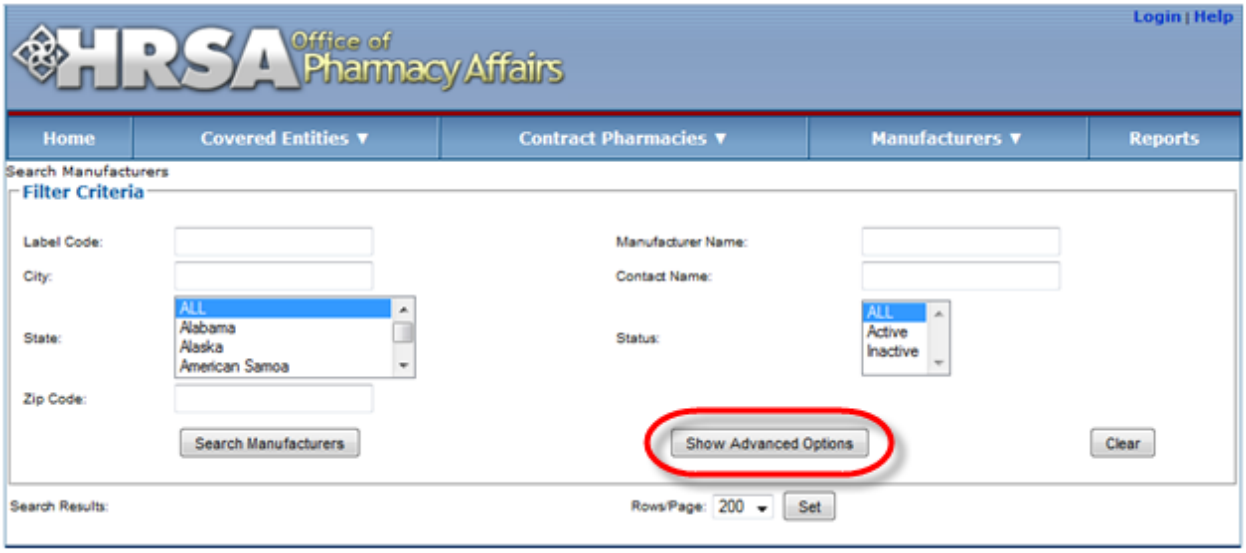
For some searches you may need more refined features than what is available in basic searches. This guide describes how to use advanced search features available for locating a manufacturer.

The advanced search options are available from the **Filter Criteria** page. These options are available on the **Filter Criteria** page [Searching for a Manufacturer].

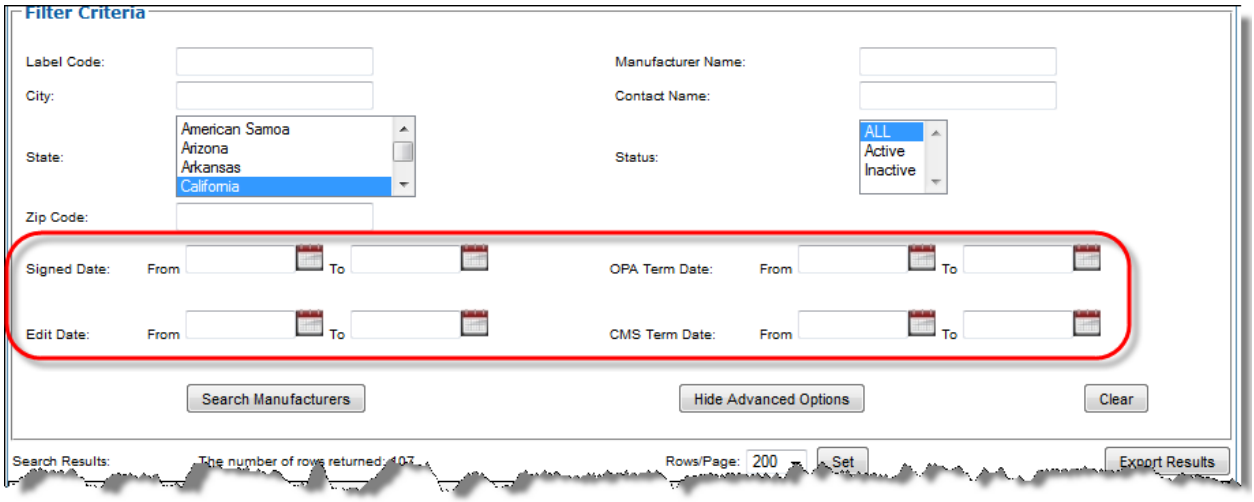
Steps:

1) From the home page, click Search for a Manufacturer.

2) On the Filter Criteria page, click Show Advanced Options.



3) Click this button to open the advanced options section on the **Filter Criteria** page.



This section offers four date ranges to narrow your search. Select the one most relevant to your search:

4) ***Signed Date From / To***: To locate manufacturers by the date range that they were approved for inclusion in the 340B Program, enter the beginning and ending dates manually (mm/dd/yyyy), or by clicking the calendar icon and selecting a date.

5) ***OPA Term Date***: To locate manufacturers by the date range that they were terminated from the 340B Program, enter the beginning and ending dates manually (mm/dd/yyyy), or by clicking the calendar icon and selecting a date.

6) ***Edit Date***: To locate manufacturers by the date range that their records were last edited, enter the beginning and ending dates manually (mm/dd/yyyy), or by clicking the calendar icon and selecting a date.

7 ***CMS Term Date***: To locate manufacturers by the date range that they were terminated from the CMS program, enter the beginning and ending date manually (mm/dd/yyyy), or by clicking the calendar icon and selecting a date.

8) Click Search Manufacturers to retrieve a list of manufactures for the date range you specified. Clear Clear to reset search filters and try again.

9) If you decide not to use the advanced filters, click Hide Advanced Options.
